

March 2026 BCMGA Member Meeting

Come to the first (almost) spring 2026 BCMGA speaker presentation on **Monday, March 16, 2026!** We haven't met in person for a few months! This is a great time to come visit with your fellow gardeners! And celebrate - the end of winter, Spring is almost here, Daylight Savings time has begun, early peas are planted and St. Patrick's Day is this week!

The BCMGA Membership Meeting is **Monday, March 16, 2026 at 7:00** in the Sunset Room. The door opens at 6:30 and after announcements the presentation will begin shortly after 7:00 p.m.

Speaker: Jeff Cope, General Manager of Home Grown Gardens, Nursery and Landscape in Corvallis.

Topic: Woodland gardens

A woodland garden is a magical place, using plants carefully chosen to appear as a natural woodland, though it is often actually an artificial creation. Typically, it includes plantings of small understory trees, flowering shrubs and perennials in a mostly shady environment with paths running through it. We will explore plant choices and the magical elements that make a woodland garden.

Location: Sunset Building, 4077 SW Research Way, Corvallis 97333. The Sunset Room is on the east side of the building; other entrances are locked at that time.

Membership meetings are open to all BCMGA members, including Master Gardeners, trainees, and the public. As always, there will be opportunities to mingle with other Master Gardeners and win raffle prizes. Wear your badge for an extra raffle ticket! As a reminder, each member meeting presentations counts for an hour of continuing education.
